Prezentare

- ✓ Romanian private company based in Romania
- ✓ About 15 employees: 2 approved RPA, physicists, nuclear engineers, technicians
- ✓ Authorized by CNCAN (Romanian Regulatory Body) to supply radiation detection and measurement instruments
(dose rate meters, contamination meters, radon monitors)
- ✓ Radiation Field Characterisation Laboratory, approved by CNCAN
- ✓ Qualified Experts Consultants for licenseing of nuclear activities
- ✓ Training in radiation protection and use of radiation detection and measurement instruments

Cifre cheie

Număr angajați

15

Proiecte nucleare de referință

Training courses on individual dosimetry (internal and external individual dosimetry)

Consultants for licencing of nuclear activities

Supply of products for nuclear decontamination

Supply and maintenance for fast track gamma portals designed to monitor the gamma contamination

Supply and maintenance for equipment designed to detect and measure hands and feet contamination

Supply and maintenance for Portable Gamma-ray Spectrometer based on HPGe detector GCD

Radiological characterization of contaminated sites

Certificate

Tip: Environmental monitoring

Data expirării: 2030-02-10

Autoritatea emitentă: CNCAN

Tip: Radiation Protection Expert

Autoritatea emitentă: CNCAN

Tip: Supply License for Radiation Detection and Measurement Instruments

Data expirării: 2030-10-04

Autoritatea emitentă: CNCAN
