Industrial Montaj – Passionate by Process Industries

Industrial Montaj is an industrial services company with over 30 years of experience delivering world-class projects in Romania and across Europe. Built on strong family values and enriched by a multicultural Romanian–French heritage, we combine financial stability, technical mastery, and organizational excellence to create long-term value for our clients and partners.

We specialize in providing fully integrated industrial solutions, from turnkey EPC contracting and industrial construction to piping prefabrication, heavy equipment installation, steel structure fabrication, and operational maintenance, including complex technical shutdowns.

Every project is approached as a strategic partnership, ensuring alignment with client objectives, regulatory requirements, and international standards of quality and safety.

Our operations are supported by internationally recognized certifications including ISO 9001, ISO 14001, ISO 45001, ISO 3834-2, ISO 1090-1 & -2, and CNCAN authorization for nuclear projects.

We leverage advanced digitalization, employing QR code tracking, low-code project management, and fully digitalized fabrication processes, ensuring precision, efficiency, and traceability across every stage of the project lifecycle. Sustainability and safety are core principles, reflected in our focus on carbon footprint reduction, energy optimization, and embedding Health, Safety &

Environment best practices in every activity.

Industrial Montaj serves a wide spectrum of industries including energy and power generation, oil and gas, petrochemical and chemical industries, pharmaceutical, food and cosmetics sectors with GMP-compliant standards, environmental and waste-to-energy projects, heavy industry, nuclear facilities, and next-generation infrastructure such as data centers and green energy plants.

Our portfolio demonstrates decades of impactful projects, including cogeneration and renewable energy plants, critical piping networks for industrial and chemical facilities, state-of-the-art pharmaceutical and food processing installations, nuclear projects compliant with stringent international regulations, and cutting-edge infrastructure supporting data centers and sustainable energy solutions.

We build enduring partnerships based on trust, transparency, and shared success. By anticipating challenges, driving innovation, and delivering tailored solutions, we enable our clients to achieve strategic objectives, enhance operational performance, and maintain a competitive edge in global markets.
