Prezentare

VASTRUM has been operating since 1995 as a reliable and steady supplier of metallurgical products for chemical, petrochemical, nuclear plant, energetic and naval industry.

Over the years we accustomed to work with different types of materials: carbon, alloy, stainless steel and special alloys.

Our company is selected as a reliable business partner by well known companies due to its Quality System certified by ISO 9001:2015, ISO 14001:2015, ISO 45001:2018 & SR EN ISO/CEI 17025:2018, CNCAN certification, PED 2014/68/EC Annex 4.3 which guarantees its products in full compliance with the criteria of Quality Management System.

We supply a wide range of high quality products - seamless and welded pipes and tubes, plates, fittings, flanges, forgings, fasteners and special items machined in our internal workshop on CNC mills and lathes .
