Prezentare

Bucharest, Romania – Kinectrics was recently in the news as it was awarded the Nuclearelectrica tender for “Independent Verification and Evaluation of Processes and Activities of Cernavoda Nuclear Power Plant” in Romania.

At a value of 49.5k Euros, Kinectrics’ Nuclear Romania SRL, with offices located in Bucharest, Romania, will focus on providing nuclear services to the Cernavoda station. To read more, please click here.

Kinectrics acquired their Nuclear Romania business in early 2018 from the Wood Group (formerly Amec Foster Wheeler). The acquisition positioned Kinectrics to better serve customers in international markets and enhances Kinectrics’ nuclear portfolio in areas of design engineering, safety and licensing, fitness for service evaluation, and radiation waste management.

About Kinectrics

Kinectrics is the category leader in providing lifecycle management services for the electricity industry. Trusted by clients worldwide, our expertise in engineering, testing, inspection, and certification is backed by our independent laboratory and testing facilities, a diverse fleet of field inspection equipment and an award-winning team of over 1,100 engineers and technicalexperts. From initial design and type testing to operational deployment and maintenance services, Kinectrics collaborates closely with customers to ensure that utility assets perform safely, reliably and efficiently throughout their entire lifecycle.
