#### **ENERGY**

Design, calculation, and consultancy for pressure equipment and steel structures

#### OIL & GAS

Design, calculation, and consultancy for pressure equipment and steel structures

#### **Prezentare**

PIPESUPPORT CONSULT was founded in 2006 in Bucharest, Romania, and is a recognized engineering company with extensive technical expertise in:

Pressure Equipment Design (Piping Systems and Pressure Vessels)

Civil and Industrial Steel Structures Design

With a vision focused on progress and innovation, we deliver customized engineering solutions designed to meet today's challenges and anticipate tomorrow's needs.

Our team brings together engineers, project verifiers, technical experts, and CAD drafters with experience across a wide range of industrial applications. This combination of skills enables us to provide advanced technical consultancy and tailored project solutions.

From conceptual design to the full technical documentation required for implementation, PIPESUPPORT CONSULT has the know-how to successfully realize projects worldwide.

By applying 3D modeling and advanced analyses using specialized software such as Caesar II, PV Elite, AFT Arrow & Fathom, and Graitec Advance Design, we are able to solve complex engineering problems. Our expertise allows us to simulate a wide variety of systems, vessels, structures, flows, and processes – from simple pipe stress or static finite element analyses to highly non-linear studies involving fluid–structure interactions.

## **Certificate**

Tip: Certificate of Acceptance for Carrying Out Activities in the Controlled Area of Operating

**Enterprises** 

Data expirarii: 2029-03-20

Autoritatea emitenda: CNCAN

Tip: Authorization for Holding Unpublished Information

Data expirarii: 2029-05-16

Autoritatea emitenda: CNCAN

**Tip:** Protocol for the preparation and registration of projects for the manufacturing, installation, modification, and repair of pressure-retaining systems/components for nuclear installations within

SNN - Cernavodă NPP Branch

Data expirarii: 2026-03-28

Autoritatea emitenda: ISCIR

**Tip:** Authorization - Technical Inspections in Use for Technical Investigations/Examinations Metal pipes for steam and hot water

Data expirarii:

Autoritatea emitenda: ISCIR

**Tip:** Authorization – Technical Inspections in Use for Technical Investigations/Examinations Metal pipes for fluids

Data expirarii:

Autoritatea emitenda: ISCIR

**Tip:** Authorization – Technical Inspections in Use for Technical Investigations/Examinations Stationary metal pressure vessels

Data expirarii:

Autoritatea emitenda: ISCIR

**Tip:** Authorization – Technical Inspections in Use for Technical Investigations/Examinations Steam boilers

Data expirarii:

Autoritatea emitenda: ISCIR

Tip: Authorization for the Quality Management System in the Nuclear Field according to NMC 05

Data expirarii: 2026-10-02

Autoritatea emitenda: CNCAN

Tip: Certificate of Implementation of Occupational Health and Safety Management System

according to DIN ISO 45001:2018

Data expirarii: 2026-02-09

Autoritatea emitenda: TÜV SÜD

Tip: Certificate of Implementation of Environmental Management System according to DIN EN

ISO 14001:2015

Data expirarii: 2026-02-09

Autoritatea emitenda: TÜV SÜD

Tip: Certificate of Implementation of Quality Management System according to ISO 9001:2015

Data expirarii: 2027-12-09

Autoritatea emitenda: TÜV SÜD
